Even with the economic measures announced by the Government, the industrial GDP of 2020 should show negative figures. According to analysts heard by the online news site G1, the proposals made by the Government need to reach more quickly to private initiative and families to avoid a widespread breakdown.

On the other hand, scientists are active for the discovery of a drug or vaccine that slows the progress of coronavirus. A study by Monash University in Australia found that a remedy used to treat parasites inhibits the growth of the new coronavirus and controls it within 48 hours. However, studies and tests in humans are still lacking to complete efficacy.

## MARKET

The Asian and European markets operated the second day of high on the stock exchanges. In Japan, the increase was 2.01%; Hong Kong 2.16% and Shanghai 2.05%. In Frankfurt, Germany, the stock market advanced 4.57% and in Madrid, Spain, 3.51%. The Ibovespa followed the bullish sequence presented by the global market and closed Monday (06) at 6.52%, reaching 74,072 points.

## TOURISM

Corporate travel should be responsible for initiating the resumption of tourism after the pandemic. With the re-establishment of services in the tourism industry, the need to recover business will be one of the indicators of recovery for the sector and the economy. The executive director of ALAGEV, Eduardo Murad, highlighted this and other points in an interview with Partiu Bandnews program, presented by André Coutinho.

## WORK

Technology continues to make a difference in the labor market. With companies adapting to digital transformations and the home office, it has increased the demand for jobs in the area of support and help desk; cybersecurity and infrastructure and networks. Opportunities range from R\$ 4,000 to R\$ 35,000.
